WELCOME IN “VAL DI SOLE”!

From 04th to 08th June Mezzana and the Noce River will welcome the 2025 ICF Wildwater European Championchips. It will be an opportunity for the public to (re)discover this spectacular site and to come back there 30 years after the first ICF Wildwater Canoeing World Championships in 1993. What a celebration for such an anniversary! The city of Mezzana has already proved its capacity to host events: each year one national event (competition or leisure) takes place on the Pentecost weekend. Feel free to join us to share together strong emotions and nice sensations through exciting adventure!

PRESIDENT'S WELCOME

For many years, the Italian Canoe Federation gained a lot of skills in hosting international events of great quality. It is with the same enthusiasm and the same passion that Italian Canoe Federation and Mezzana will work together in order to lead a new exciting project. We hope to see you in Mezzana along the river!

GREETINGS FROM THE PRESIDENT OF THE VAL DI SOLE TOURISM BOARD – MR. LUCIANO RIZZI

It is with immense satisfaction, on behalf of the Val di Sole Tourism Board, that I welcome all athletes, trainers and spectators coming to Val di Sole for the 2025 Wildwater Canoeing European Championships. A prestigious sporting event that will once again be held on the spectacular Noce River after 17 years. These competitions, together with various European rafting competitions, that will once again be held in Val di Sole after a 13-year absence, will place Val di Sole back on the international scene of these thrilling river sporting events. Exciting sports that harmoniously co-exist with the local surroundings that therefore highlight the connection with one of the valley's most important features: water.

In fact, the abundance of water sources in Val di Sole distinguishes our destination from other alpine valleys and it also provides many opportunities for guests visiting the valley: the Noce River, thermal spa centers, lakes, waterfalls.

A great mix of new and exciting events for which I would like to express a heartfelt thank you to all of you for once again returning to Val di Sole. Good Luck and Happy Paddling!

BASIC INFORMATION

Water is one of Val di Sole's most characteristic features, with its wealth of springs, streams, rivers, and lakes. And lord of them all is the River Noce. A paradise of nature, sport and fun. A place for body and mind, ideal for the most intimate of introspective exploration. The Noce is one of the most important rivers for sport in Italy, thanks to its difficult conditions, the length of its practicable stretches, and the beauty of its surrounding scenery. It is the only European river to be classed by NATIONAL GEOGRAPHIC among the top 10 in the world for river sports! Activity suitable for all, requiring no particular skills. The only indispensable premise that you know how to swim. Then all you need do is jump in! Your total safety is guaranteed by our professional guides.

The River Noce rises near the Corno dei Tre Signori (3,360 m asl), in the Ortles-Cevedale mountain range, just few kilometres further down forming the artificial lake Pian Palù, after which it flows all the way down the valley, fed by other rivers that include the Noce Bianco, the Vermigliana and the Rabbies, in a continuing alternation of rapids and slower currents, crashing waves or slower moving stretches where the water feels almost like a caress. The Noce has history, scenery and biodiversity: the Parco Fluviale Alto Noce (Upper Noce River Park) guarantees management of the protected areas and river environment of the Noce and its tributaries. It offers plenty of activities to choose from: rafting, fishing and the cycle path that follows it almost the entire length of its course.

Mountain traditions are everywhere in Val di Sole, in all its little towns and villages and in its friendly people.

TOWNS

Val di Sole is made up of 13 municipalities that follow the course of the River Noce. Some are in the valley bottom and others on the slopes of the surrounding mountains. They merge the modernity of their amenities with the tradition of their architecture and building materials, especially wood. Find out what is worth visiting in each place in the valley.

WHERE WE ARE

Val di Sole is in north-western Trentino, among the Ortles-Cevedale, Adamello-Presanella and Brenta Dolomites Mountain groups. In the Trentino sector of Stelvio National Park and part of Adamello Brenta Park. Val di Sole also includes two small side valleys: Val di Peio and Val di Rabbi. Check out where we are on the map and how to get here.

PEOPLE & CULTURE

Val di Sole is the birthplace of several famous people. As well as these, we want to introduce you to our lesser 'heroes', who bring value to our area with their daily work. Artisans, mountain experts, farmers, and sportspeople. We think they say a lot about how we are and how we live. Want to get to know them?

TRANSPORT

LOCATION

Mountains, glaciers, rivers, lakes: the Val di Sole is the mountain in its purest state, a land just waiting to be explored. Val di Sole is in north-western Trentino, among the Ortles Cevedale, Adamello-Presanella and Brenta Dolomites Mountain groups, a UNESCO world heritage site. It develops for over 40 km along the course of the Noce, the river classified by National Geographic as one of the top ten in the world for rafting. Most of Val di Sole is protected to the south by the Adamello Brenta Nature Park and to the north by the Stelvio National Park where the two side valleys, Val di Peio and Val di Rabbi branch out.
